Stop the Scams: scrap the IR Laws

The past few months has seen a list of anti-worker anti-union
scams by employers emboldened by Howard's IR Laws

With the upcoming State and Federal elections we will have a chance
to show the emphatic community opposition to these laws and to the
types of backwardness they encourage amongst some employers.

The most recent scams include:

Qantas selloff ... executive profit via loaded up debt:
reducing job security

Tristar moving offshore ... trashing redundancy payments

Misuse of 457 visa scheme ... Filipino workers in Brisbane:
using the excuse of gaps left by 10 years of cutbacks in local training

Speakers include:

Paul Bastian, NSW State Secretary, AMWU

Special Guest, Tristar delegate from the Sydney factory
