LOCKOUT

"In 1929 one of the darkest chapters in Australian industrial history was written in blood and bitterness on the Northern Coalfields of NSW ..."

Presented by award-winning actor Chris Haywood, LOCKOUT re-tells the miners' story and how community anger lead to the violent battle of Rothbury, when police fired on unarmed miners, killing one and wounding many.

CONSTRUCTING FEAR

The film you must see before the next election!

A documentary exposing the activity of an industrial inquisition targeting building workers across Australia. "Constructing Fear" shows how these workers are the front line in an attack on civil liberties that has implications for every Australian.
